

**SCIENCE, TECHNOLOGY AND INNOVATION POLICY
AND MANAGEMENT (STIPM) JOURNAL
Volume 01, Number 02, December 2016**

FOREWORD by EDITOR-in-CHIEF

We are very pleased to present the second issue of the Science, Technology and Innovation Policy and Management (STIPM) Journal. We are very excited that the journal has attracted papers from many countries. The variety of paper submissions has supported the international-level initiatives of the journal. Since the beginning of the year, a number of articles have been sent to us. Six articles are published in this issue, while others are still under the first or second phase of review and will follow in the subsequent issue.

In this issue, we present six articles on issues of technology and innovation development and policy at national-, regional-, and firm-level, written by scholars from Australia, Japan and Indonesia. The first article investigates the technological capability of the milk processing industry in Indonesia. The second article investigates mass production of innovation in the business model of start-up companies. The third article explores the diverse effects of four types of mobility on university entrepreneurship. The fourth article explores institutional transformations in local innovation systems used by the farmer community of Belu, East Nusa Tenggara, Indonesia. The fifth article analyzes the transition of bioplastic development in Indonesia, and the last article investigates the effectiveness of subsidies in technology adoption using the case study of reverse osmosis membrane technology in Mandangin Island, East Java, Indonesia. All articles have gone through editorial review by prominent experts.

I would like to thank the authors who have submitted articles to *STIPM Journal* for their trust, patience and timely revisions as well as for trusting Editor and Editorial Board. I encourage authors to submit their manuscripts. This scientific work is published widely on an open access policy.

My gratitude also goes to all members of the Editorial Board and reviewers who have contributed to this second issue, all of whom increase the quality of articles in this journal even more. We continue to welcome article submissions in the field of science, technology and innovation policy and management.

We wish you a 2017 Happy New Year!

Jakarta, December 2016
Editor-in-Chief

JOURNAL OF STI POLICY AND MANAGEMENT

Volume 1, Number 2, December 2016

LIST OF CONTENTS

How Does the Milk Processing Industry in Indonesia Develop Their Technological Capability? Budi Triyono, Chichi Shintia Laksani, Muhammad Zulhamdani, and Saut Siahaan	103–116
Mass producing innovation: a case investigation on why accelerators might not be a paradox Andrew Barnes	117–124
Exploring Diverse Effects of Four Types of Mobility on University Entrepreneurship Satoko Yasuda	125–136
Institutional Transformation of Local Innovation Systems in Farmer Community of Belu, East Nusa Tenggara Febtri Wijayanti, Savitri Dyah, Rachmini Saparita, and Akmadi Abbas	137–151
Dynamics of Bioplastics Development in Indonesia Qinan Maulana B. Soesanto, Dian Prihadyanti, Hartiningsih, and Trina Fizzanty	153–161
Effectiveness of Subsidies in Technology Adoption: A Case Study Involving Reverse Osmosis (RO) Membrane Technology Nur Laili, Rendi Febrianda, and Iin Surminah	163–170
